

Trash Pick-up

This notice comes from our trash company that picks up resident trash and household waste in the Borough.

All household trash and household waste are to be placed into tied plastic bags. Effective immediately.

Please do not place trash and household waste of any kind, loose in the cans. All trash and household waste of any kind must be placed into tied plastic bags.

This is for the safety of the workers picking up the trash and household waste. It is very unsanitary to place your trash and household waste straight into a can and leave it curb side for the workers to pick up.

The can may not be picked up if the workers find loose trash and household waste at the curb.

This also pertains to recycling. There is to be no food of any kind, including pizza boxes, in with the recycling.

Thank you for your cooperation and attention to this matter.
